Marketing Disclaimer

During the entire process of your solar panel installation, we will document the works with photographs of the equipment locations prior to works being carried out, during the works being carried out, as well as comprehensive photographs and/or videos upon immediate completion and commissioning of the works.

We reserve the right to appoint an independent photographer of our choosing to pilot a light commercial drone above your property, as well as take photographs of your solar inverter/battery equipment using a DSLR.

By agreeing to a renewable technology installation by EcoSheffield, you give full consent for any photographs of your solar panel installation to be used for marketing and promotional purposes.

This may include, but is not limited to:

- Use in print materials
- Use in digital media
- Use on social media platforms
- Use on websites
- Use in advertising campaigns

We will ensure that photographs of your installation are of the technology installed only, and do not contain any sensitive information, identifying features of the property or area, and do not compromise the safety and security of your home.

You agree that these images may be used without further notification, and waive any rights to inspect or approve the finished product wherein our installation appears. You also acknowledge that there will be no financial compensation for the use of these images.

This consent is given voluntarily and without expectation of compensation now or in the future.

If you would prefer to opt out of this, please inform your installation coordinator prior to your installation.
